

Enable a Young Woman in India to Realize Her University Dreams & Change the Course of Her Life

ASHIKA

***Candidate for Bachelors of Technology – Agriculture
Tamil Nadu Agricultural University, Coimbatore,
Tamil Nadu, India***

Ashika finished at the top of her class in both middle and high school. With the support of one of the Visions' educational community workers, Ashika approached Visions with a request to support her in pursuing a Bachelors of Technology in Agriculture at Tamil Nadu Agricultural University. Her mother had earlier asked her to come work in a cashew nut factory, but Ashika has other plans.

Sadly, Ashika has no father, and her mother labors in a marriage hall cleaning vessels. Her family lives largely off the left-over food from events held at that venue.

Despite her high achievements and grand ambitions, Ashika has no one in her family or community who was willing or able to step forward and support her in her higher studies. Yet, it is exactly young women like Ashika who will not only change the trajectories of their own lives through this scholarship initiative, but will help to break the cycles of poverty for their communities as well.

For just \$25/month, you can make Ashika's university dreams a reality!

Ashika is 1 of 20 young women who were selected to receive a Visions scholarship this year, provided funding can be secured...which is why we need you! Through the Visions Youth Guidance & Support Program, she received support with college applications, career counseling, interviews, English-language training, field visits, scholarship / financial aid assistance, and more. She now needs only minor financial assistance for tuition and living expenses to be able to realize her university dreams. Please become a sponsor by setting up a recurring contribution of just \$25/month, and we'll keep you informed of her progress over the next 1 year.
